[LinkedIn](#) | [Portfolio](#) | [Github](#)

Third-year Information Technology student with hands-on experience in full-stack web development, Python programming, database management, and customized CMS/WordPress solutions. Skilled in building responsive web applications, optimizing user interfaces, and integrating IoT hardware systems. Seeking a software development or web technology internship to leverage technical skills in real-world engineering projects.

TECHNICAL SKILLS

- Languages: Python, C, JavaScript, HTML5, CSS3, SQL
- Web Development & CMS: React, Node.js, Express, WordPress, Tailwind CSS, REST APIs
- Databases & Tools: MySQL, MongoDB, Git/GitHub, VS Code, Figma, Video Editing Software
- Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Web Security Basics

PROJECTS

WebInfo – Website Intelligence & Security Analysis CLI

- Built a Command-Line Interface (CLI) tool in Python to analyze website intelligence, domain metrics, and web security parameters.
- Implemented modules to fetch and parse network headers, SSL certificates, and site performance metadata automatically.
- Optimized execution speed and error-handling logic for processing command-line queries and parsing HTTP response payloads.

E-Commerce Web Application | HTML5, CSS3, JavaScript, Responsive Design

- Developed an interactive online shopping platform featuring product catalogs, dynamic cart updates, and responsive user interfaces.
- Integrated modern UI components and CSS layouts to ensure consistent cross-browser compatibility and seamless mobile rendering.
- Applied clean DOM manipulation techniques in JavaScript to handle user events, cart pricing logic, and item filter workflows.

Message Portrait Studio & 3D Viewer | JavaScript, HTML5, React, Canvas

- Engineered a visual canvas tool that transforms user text into custom photo art rendering and interactive visual outputs.
- Integrated React and JavaScript workflows (utilizing Vite for fast build tooling) to power dynamic state changes and rendering components.
- Designed modular UI components, improving page load speeds and user interaction responsiveness.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology

Dr. APJ Abdul Kalam Technical University

Aug 2024 - Present

Intermediate

Gangotri Devi Inter College (GDIC)

June 2021 - April 2022

High School

Gangotri Devi Inter College (GDIC)

June 2019 - April 2020
